Specifically, the Board will be actively involved in developing appropriate governance arrangements and implementing a regime to continually monitor these arrangements.

Detailed background information will be obtained for a potential candidate to the Board and appropriate checks will be undertaken prior to appointment or before putting forward to the Securityholders for election. The identification of a potential Director may be assisted by the use of an external search organisation as appropriate. The Board collectively will consider potential candidates for Directorship and, if it is resolved to do so, will extend an invitation to join the Board.

1.5 Diversity

The Board has adopted a Diversity Policy for the Company, which includes details on how the Board takes into account the diversity criteria when identifying and assessing potential Director candidates and members of the senior management team. In adhering to its Diversity Policy the Company has attempted to introduce diversity standards to ensure an environment that is supportive of equal opportunity and equal access to career development, remuneration and benefits through the implementation of practices, procedures and policies which support, among other matters, diversity

Whilst the Company notes the ASX Principles and Recommendations, it recognises that the Company has a small team of Directors and employees, and as such the Board has determined that it will not set benchmarks for gender diversity, and will not report against its progress to achieve any measurable objective. The Company remains committed however, to ensuring that the best candidates both at a Board and employee level are appointed as opportunities arise regardless of gender, beliefs or racial background.

The Company believes that while this is departure from the Principles and Recommendations, it does not diminish its commitment to ensuring gender diversity.

1.6 Performance Review and Evaluation

During the year the Board undertook an interview between the Chairman and each Director to discuss the performance of the Board and review the contribution, attendance and role of each Director. The Chairman of the Board Audit and Risk Committee conducted similar interviews in respect of the performance of the Chairman with each Director individually. The Chairman then provided individual feedback to each Director and the Chairman of the Board Audit and Risk Committee provided feedback to the Chairman of the Board. The Board then undertook a session in which the performance of the Board was discussed with all Directors present.

1.7 Performance and Review and Evaluation of Executive Key Management Personnel

The Board monitors and evaluates the performance of the Executive Key Management Personnel of the Company. Key performance indicators are defined and communicated on an annual basis to the Chief Executive Officer. The HPI Group communicates all important information relating to the HPI Group to its Securityholders. To achieve this, the HPI Group communicates information to Securityholders and other stakeholders through a range of forums and publications, including the HPI Group website, at the annual general meeting, through the annual report and ASX announcements. The HPI Group also has in place a Securityholder Communication Policy to facilitate communication with Securityholders."

Principle 7 - Recognise and Manage Risk

The HPI Group's business of investing directly in freehold property exposes it to certain risks which the HPI Group actively monitors and seeks to manage. The Board Audit and Risk Committee assists the Board in fulfilling its responsibilities relating to overseeing the HPI Group's risk profile, policy and the effectiveness of the HPI Group's risk management framework. During the period the Board Audit and Risk Committee and the Board reviewed and updated the risk management framework including the risk matrix. They determined that regulatory risk pertaining to liquor laws in Queensland (where the majority of the HPI Group property portfolio is concentrated), and ongoing credit availability remained the key risks for the HPI Group, with further risks including increasing costs of credit, tenant credit risk, valuation risk, and property liquidity risk.

The HPI Group considers risk management fundamental to maintaining efficient and effective operations and generating and protecting Securityholder value. For the HPI Group, the management and oversight of risk is an ongoing process integral to the management and corporate governance of its business.

The HPI Group has adopted risk management policies which aim to establish a consistent approach to identifying, reporting and addressing material business risks throughout the organisation. The risk management policies and risk management systems established under the policies are administered by the Board in consultation with the HPI Group's Senior Management.

The Board will have primary responsibility for ensuring that the significant risks facing the HPI Group have been identified and adequate control, monitoring and reporting mechanisms are in place. The Company, as Responsible Entity of the Trust, has established a Compliance Committee pursuant to Part 5C of the Corporations Act, to assist the Board to discharge its risk management and compliance responsibilities as Responsible Entity. This Compliance Committee is responsible for the oversight of risk management, internal control systems and compliance matters specific to its obligations as the Responsible Entity. A copy of the HPI Group's risk management policies are available at www.hpitrust.com.au.

7.1. Risk Committee

The Board does not have a stand-alone Risk Committee. It aligns with the vision, strategy, processes, technology and governance of the HPI Group and provides for:

- (a) appropriate levels of risk taking;
- (b) an effective system for the management of risk across the HPI Group;
- (c) protection against incidents causing personal injury and property damage;

- (d) development of risk management and control plans to reduce or minimise unforeseen or unexpected costs;

7.3. Internal Audit

The HPI Group does not have an independent internal audit function due to the size of the organisation, and relies on the controls testing and recommendations to the Board from the external Auditor.

The Board has primary responsibility for ensuring that the significant risks facing the HPI Group have been identified and adequate control, monitoring and reporting mechanisms are in place.

7.4 Risk Exposures

The risk management function is supported by the Board Audit and Risk Committee. The Board Audit and Risk Committee have reviewed the overall risks to the HPI Group and have reported to the Board that there are in their opinion no material un-mitigated exposures to economic, environmental or social sustainability risks that would have an impact on the HPI Group or its operations.

Whilst the HPI Group is not subject to significant environmental regulation in respect of its property activities, the Directors are satisfied that adequate systems are in place for the management of its environmental responsibility and compliance with the various licence requirements and regulations. - (d) Take specific account of the circumstances applying to the HPI Group to achieve the right balance between fixed and variable remuneration and the right timeframes and performance measures used to assess variable remuneration outcomes.

A mix of fixed and performance-related remuneration is provided to achieve these objectives. Under the current business model, the Board considers it appropriate that all performance-based rewards be provided through the equity-based long term incentive plan ("LTI") with no annual bonus or short term incentive ("STI"). The weighting to fixed pay is reflective of the steady and predictable nature of HPI's current business.

The remuneration paid to Directors and Key Management Personal, including composition of remuneration is included in the Annual Report.

8.3. Equity Based Remuneration Scheme

The Company established the LTI Plan in the 2017 Reporting Year. Under the LTI plan, participants receive grants of Rights over HPI Securities. Each Right may be exercised to provide one HPI Security if the performance conditions attached to that Right are satisfied and the Executive remains employed with the HPI Group until the relevant vesting outcomes have been determined. To further maximise the alignment of interests between Executives and Securityholders, for the period between vesting and exercise of a Right, the Company will remunerate the executive an amount equivalent to the distributions paid on a Security over that same period for each Right that vests.

The Security Trading Policy prohibits participants from entering into hedging arrangements in relation to the Company's and Trust's securities, including, without limitation, arrangements that would have the effect of limiting the exposure of the person to risk relating to an element of their remuneration that has not vested, or has vested but remains subject to a holding lock.
