Specifically, the Board will be actively involved in developing appropriate governance arrangements and implementing a regime to continually monitor these arrangements.

Detailed background information as to the character, experience, education, criminal record and bankruptcy history will be obtained for a qualified candidate. Appropriate checks will be undertaken prior to appointment or before putting forward to the Securityholders for election. The identification of a potential Director or Senior Executive may be assisted using an external search organisation as appropriate.

The Board collectively will consider potential candidates for Directorship and, if it is resolved to do so, will extend an invitation to join the Board. In adhering to its Diversity Policy the Company has attempted to introduce diversity standards to ensure an environment that is supportive of equal opportunity and equal access to career development, remuneration and benefits through the implementation of practices, procedures and policies which support, among other matters, diversity.

Whilst the Company notes the ASX Principles and Recommendations, it recognises that the Company has a small team of Directors and employees, and as such the Board has determined that it will not set benchmarks for gender diversity, and will not report against its progress to achieve any measurable objective. The Company remains committed however, to ensuring that the best candidates both at a Board and employee level are appointed as opportunities arise regardless of gender, beliefs or racial background.

The Company believes that while this is departure from the Principles and Recommendations, it does not diminish its commitment to ensuring gender diversity.

For non-externally audited reports, the Company undertakes a rigorous validation process using internal and external resources to check and verify information disclosed to the market. Securityholders who are unable to attend the annual general meeting, or a general meeting may submit questions and comments before the meeting to the Company and/or to the Auditor (in the case of the AGM).

Principle 7 - Recognise and manage risk

The Company's Board Audit and Risk Committee ("BARC") assists the Board in fulfilling its responsibilities relating to the oversight of the HPI Group's risk profile. During the period the BARC and the Company's Board reviewed and updated the Risk Management framework, including the risk matrix. Interest rate risk, market risk and regulatory risk are considered the key risks for the HPI Group.

Further material risks include credit availability, tenant credit risk, valuation risk, property liquidity risk, succession planning, possible adverse impacts of inflation and the COVID-19 pandemic.

The HPI Group considers risk management fundamental to maintaining efficient and effective operations and generating and protecting Securityholder value. For the HPI Group, the management and oversight of risk is an ongoing process integral to the management and corporate governance of its business.

The HPI Group has adopted risk management policies which aim to establish a consistent approach to identifying, reporting and addressing material business risks throughout the organisation. The risk management policies and risk management systems established under the policies are administered by the Board in consultation with the HPI Group's Senior Management.

The Board will have primary responsibility for ensuring that the significant risks facing the HPI Group have been identified and adequate control, monitoring and reporting mechanisms are in place. The Company, as Responsible Entity of the Trust, has established a Compliance Committee pursuant to Part 5C of the Corporations Act, to assist the Board to discharge its risk management and compliance responsibilities as Responsible Entity. This Compliance Committee is responsible for the oversight of risk management, internal control systems and compliance matters specific to its obligations as the Responsible Entity. Under the Compliance Committee Charter, the Committee will meet at least once in each quarter. Significant matters arising during a quarter are addressed by Management and escalated as appropriate.

The management and oversight of risk is an ongoing process integral to the management and corporate governance of the HPI Group. The Board reviews the risk management framework at least annually and discloses within each annual report whether such review has taken place.

The Board determines the HPI Group's tolerance for risk and is committed to a risk management system that balances the need to preserve long term value, prudently manages the properties, maintain good relationships with tenants, and facilitates a culture of innovation. The HPI Group's risk management system is designed to assist the HPI Group to achieve its strategic and operational objectives. The Board has primary responsibility for ensuring that the significant risks facing the HPI Group have been identified and adequate control, monitoring and reporting mechanisms are in place.

7.4 Risk Exposures

The risk management function is supported by the Board Audit and Risk Committee. The Board Audit and Risk Committee have reviewed the overall risks to the HPI Group and have reported to the Board that there are in their opinion no material un-mitigated exposures to economic, environmental or social sustainability risks that would have an impact on the HPI Group or its operations.

Whilst the HPI Group is not subject to significant environmental regulation in respect of its property activities, the Directors are satisfied that adequate systems are in place for the management of its environmental responsibility and compliance with the various licence requirements and regulations. Further, the Directors are not aware of any material breaches of these requirements.

The Board's overall objective is to ensure that executive remuneration is effective in attracting, motivating and retaining high calibre executives to allow the HPI Group to generate sustainable growth in value for Securityholders, and that in doing so reflects the Group's risk culture and organisational values.

More specifically, the executive remuneration framework is intended to:

- (a) Provide fair remuneration outcomes for executives having regard to relevant market remuneration levels and their ability, experience and contribution to the HPI Group's sustainable long-term performance;
- (b) Be sufficiently closely linked to the HPI Group's sustained growth performance to provide alignment with the interests of Securityholders;
- (c) Ensure that remuneration and remuneration outcomes are determined on a clear and transparent basis; and
- (d) Take specific account of the circumstances applying to the HPI Group to achieve the right balance between fixed and variable remuneration and the right timeframes and performance measures used to assess variable remuneration outcomes.

A mix of fixed and performance-related remuneration is provided to achieve these objectives. During the year the Board has reassessed its growth objectives and consequently introduced a short-term incentive ("STI") plan to complement the existing equity based long term incentive plan ("LTI"). Under the current business model, the Board anticipates that the weighting of total remuneration be to fixed pay as it is reflective of the steady and predictable nature of HPI's current business.

The remuneration paid to Directors and Key Management Personal, including composition of remuneration is included in the Annual Report.

8.3 Equity Based Remuneration Scheme

The Company has an established Long Term Incentive Plan ("LTI Plan"). Under the LTI plan, participants receive grants of Rights over HPI Securities. Each Right may be exercised to provide one HPI Security if the performance conditions attached to that Right are satisfied and the Executive remains employed with the HPI Group until the relevant vesting outcomes have been determined. To further maximise the alignment of interests between Executives and Securityholders, for the period between vesting and exercise of a Right, the Company will remunerate the executive an amount equivalent to the distributions paid on a Security over that same period for each Right that vests.

The Security Trading Policy prohibits participants from entering into hedging arrangements in relation to the Company's and Trust's securities, including, without limitation, arrangements that would have the effect of limiting the exposure of the person to risk relating to an element of their remuneration that has not vested, or has vested but remains subject to a holding lock.
